COSHOCTON DAILY AGE.

THE WEATHER: Cloudy tonight and Saturday; probably rain Saturday.

VOL. 3. NO. 180. COSHOCTON, OHIO, FRIDAY EVENING, DECEMBER 27, 1901. TWO CENTS

Ransom Dry Goods Company

DAILY BULLETIN.

Christmas of 1901 Has Passed Away.

We have a few Christmas goods left on hand that we will close out very cheap as we want to get rid of every article of this kind.

Next season we want to show the finest assortment of Christmas goods ever shown in Coshocton and don't want any old stuff in the lot.

If you have delayed in buying your jacket or long coat.

We have some good garments left at very low prices. In fact we will surprise you on price.

Come and see what we have. We are satisfied that we can please you.

Furs at the lowest prices ever heard of. Some very fine ones bought expressly for Christmas trade left over. Now is your time to secure a fine scarf or boa at a very low price.

Ladies' dress skirts at about half price. Some very fine ones, and all made of good material. Made of black broadcloth and all wool cheviots.

Ladies' Wool Waists at unheard of prices. Nearly all colors and sizes.

Hundred of other winter goods at cut prices.

Very Respectfully

Ransom D. G. Co

ABOUT EIGHT HUNDRED A WEEK

Will Be the Payroll of an Old Established Concern Whose Officers Have a Good Opinion of Coshocton.

The sharpers who were out for bonus money and trusted to the future and good luck to carry out their promises have been weeded out by the board of trade, and men who mean business are looking to Coshocton as an ideal spot for the location of manufacturing plants.

The parties who own a blanket and felt factory and want to move because they must increase the size of their plant were here Thursday and were shown the city. Secretary Boyd took them in charge, and they were driven about the city. They expressed themselves as pleased with the site for the proposed factory, and were enthusiastic in regard to Coshocton, declaring it would be the best place they knew of for their factory. They explained their business in detail, showing that they have been doing business for many years, and continued to operate during the late panic without interruption. They want to employ 100 people at an average weekly payroll of $800 at the start, but they expect to have capacity for 200 workmen in order that they may meet the demands of their growing business. They ask the board to build them a factory of this kind and provide a suitable site. The factory and site will cost no more than $5,000.

A meeting of the board was held in the office of Secretary Boyd Thursday evening and the proposition was discussed in every detail. There is no question as to the financial responsibility of the parties concerned and it is probable the proposition will be accepted.

If the deal goes through, and there now seems no reason why it should not, four new factories will be in operation in the upper part of the city before the beginning of summer

TO FRAME A BILL

That Will Cover Every Phase of Important Game Questions.

The game and fish commission will hold an important meeting in Columbus tomorrow for the purpose of deciding on the important features of a new game law. It is the purpose of the commission to have present the representatives of leading shooting associations in order that the opinions of those most interested may be obtained. Coshocton sportsmen will be interested in knowing that while the permission clause may be retained, the open season will probably be extended 30 and perhaps 60 days.

LITTLE ONE WAS MISTAKEN.

Her Father Suffered From Vaccination and Not Smallpox.

Some excitement was occasioned in the upper part of the city when the rumor spread that Prof. L. H. Richard was suffering from smallpox in Boston. It seems that Professor Richard, who had been in Lebanon, had gone to Boston to spend three months, and upon finding that many cases of smallpox were under quarantine in the city decided to be vaccinated. His arm became very sore and he wrote to his daughter, who lives with her grandmother on Locust, that he was suffering with something worse than the smallpox. This alarmed the little one and as she could imagine nothing worse than the dread disease she announced that her father was one of its victims

DETECTIVE MOORE ILL.

Well Known Pan Handle Man in Dangerous Condition.

P. H. Moore, for the last three years one of the most active and efficient detectives for the Pennsylvania with headquarters for a time in Coshocton and later in Dennison, was taken to his home in Mansfield in a condition that alarmed his family. Mr. Moore has been a sufferer for some time with inflammatory rheumatism and the malady became so acute last week that he was unable to walk without the aid of crutches. Mr. Moore also recently learned that he had diabetes and the outlook is not very encouraging.

ONE NEW CASE

Diphtheria is Not Spreading Rapidly in the City.

One new case of diphtheria was reported to Health Officer Foster. The victim is a child in the Dyser family on Locust, and it is in a dangerous condition.

The rooms occupied by the Todd family have been fumigated, but the children are not allowed to go out.

The disease is now confined to four houses in the city and is not spreading rapidly, as some people believe.

The rooms in the Forbes building were filled with the merry party, and the dance was among the most enjoyable ever held by the organization. An appetizing lunch was served, and those who do not dance spent the evening at cards.

IN NEED OF SIDEWALKS.

South Ninth Street People Are Wading Around in Mud.

It is a safe proposition that before the end of next year the people of South Ninth in the board of trade first addition will have sidewalks in front of their residences.

The street is now a sea of mud, and careful indeed must be the individual who would escape without droping into a depth sufficient to reach the shoetop. Complaints were many early in the week, but now residents realize that they must act if they would have a firm foundation on which to walk.

Some curbing has been delivered along the street, but it has not been set, nor will it be until summer comes again.

MORE ASHES

Are Needed on North Seventh Street Between Main and Chestnut.

Persons who travel North Seventh between Main and Chestnut, and there are many of them, believe the city should sprinkle a few tons of ashes on the path. It has not been repaired for months, and is now in such condition that complaint is general. The path is often so wet and muddy that pedstrians are compelled to walk a square or two out of their way.

POOR WOMAN FROM LICKING

Refused To Return and The Aid of The Law Was Invoked.

I. J. Baker, infirmary director, went before Judge Roche Thursday and made affidavit against Mrs. Kindel. He declared that she belonged in Licking county but was now with friends in Jackson township who are unable to support her. She refused to return to Licking and the court issued a warrant directing Superintendent Lennon to take her to Licking county and turn her over to the poor authorities.

CHORAL SOCIETY

Will Hold an Important Meeting at Presbyterian Church Tonight.

An important meeting of the Choral society will be held this evening in the lecture room of the Presbyterian church, and all members are urged to be present. The business is of such nature as to demand the attention of every member of the society. The meeting has been called for 7:30 o'clock.

ONLY THREE MINUTES

But It Seemed Like an Age to John S. Berton, of Dennison,

STRUGGLING FOR HIS LIFE

In the Basin at Adams Mills—The Ice Had Broken and Plunged Him Into Thirty Feet of Cold Water.

John S. Berton, an employe of the car department of the Dennison shops, while engaged with a gang of men in cutting ice for the company at Adams Mills, had a narrow escape from drowning.

Berton was engaged in sawing ice about 20 feet from other members of the party, when suddenly the ice gave way and he was precipitated into 30 feet of water. The opening caused by the breakage was about ten feet square. He made an attempt to get out before calling for help, but was unsuccessful, as his weight and the heavy clothing he had on, now thoroughly soaked with water, caused the ice to break at every effort. When his cry for help was heard several men started to his rescue, but Mr. Berton had presence of mind enough to notify them that it was unsafe for more than one to come. With the aid of a pole he was soon extricated, but in a very exhausted condition. He was in the water only about three minutes, but it seemed like a lifetime to the struggling man.

A short time before the ice broke under Berton a horse used to pull a marking machine went through the ice in another part of the pond. The men pulled him up the channel to the ice schute at the railroad track and got him out safely.

CHILDREN AS WITNESSES

In a Case That Resulted in a Woman Being Bound Over to Court.

A number of children appeared as witnesses in the court of Squire Wimmer Thursday afternoon when the case of Mrs. Gollar Hill, colored, against Mrs. Ann Roduck was heard. Mrs. Hill charged Mrs. Roduck with provoking a breach of the peace by using profane and abusive language, and the testimony brought out was such as to cause laughter and disgust. Hon. J. C. Adams appeared for Mrs. Hill and Solicitor McDowell for the defense.

Squire Wimmer reserved his decision until this morning when he bound Mrs. Roduck over to common pleas court in the sum of $50. In announcing his decision he said the case was of such character that had the defense made complaint he would have punished both. The parties reside at Swan island.

THAT WAGE STORY

Is Being Received With Delight By Pan Handle Employes.

The story sent out from Chicago that the general managers of all great railroad systems east of that point were considering a proposition to increase the wages of employes is being discussed with interest by Pan Handle men. They think they should have as much money as men doing similar work west of Chicago, and the increased cost of living will make the rise when it comes very acceptable. All employes of the Pan Handle are well paid, but the enormous amount of freight and passengers being handled cause them to think they should have more money.

ONE OF THE LONGEST

Will Be the Wheeling Bridge Over the Ohio at Mingo.

The American Bridge company has secured the contract for the steel superstructure of the Wheeling & Lake Erie railroad's big cantilever bridge over the Ohio river at Mingo. The amount of the contract is over $600,000 and the stipulation is made that the work be completed before Jan. 1, 1903. The whole cost of the bridge will be $1,000,000. Only two bridges of the kind in the world are greater than this, the one over the Firth of Forth, Scotland, which is the largest, and the Wabash company's bridge over the Monongahela river at Pittsburg, now under construction.

TOO MUCH MONEY

Was Needed to Pay Taxes to Leave Any For Christmas Gifts.

Many persons are surprised to find their taxes higher than ever before, forgetting that the last decennial appraisement is the new order under which they pay. One well known business man remarked that this had its effect on holiday trade. People came to the city, he said, with what they believed was enough money to pay taxes and a few dollars for presents. After paying their bill at the courthouse many of them found they had no money left for Christmas and they either went home without the usual presents or secured credit for what they wanted.

An Indication of Nervous Troubles.

A headache is simply an indication that some part of the body is deranged, usually the stomach or nervous system. Clinic Headache Wafers cure by relieving those conditions. Never fail. Try them and be convinced. Ten cents at all druggists. They are absolutely harmless. Don't accept a substitute.

SENATOR SEWELL DEAD.

He Was Ill for Months and Death Was Expected.

(Special Telegram to The Age.)

CAMDEN, Dec. 27. Senator Sewell died at 9.30 o'clock this morning. He had been ill for months and his death was not unexpected. His prominence in the politics of New Jersey extended over a period of many years, and he was one of the most prominent men in the commonwealth.

THEY NEEDED NO HELP.

Statements of Township Trustees Regarding Adverse Criticism

Joseph Porteus and Albert King, township trustees, resent the criticism to which they have been subjected because of alleged neglect of the Hallisy family during the great bereavement that has come to Mr. Hallisy. The gentlemen make the following statements:

Editor Coshocton Age: In your paper of Dec. 26 a reference was made to the complaint of neighbors regarding the neglect of the township trustees toward the Hallisy family. It is only reasonable to suppose and just that this family should have the sympathy of all neighbors during this sad affliction, yet I as one member of the board am not willing to have reflection cast on the board, it unjust. The facts are that many rumors have been in circulation regarding the condition of the families refered to, and I am fully convinced after a careful investigation Dec. 25 that said rumors are groundless.

Respectfully,
JOSEPH PORTEUS.

EDITOR AGE—I desire to say regarding the statement that the Hallisy families were neglected by the township trustees that we had complaint from a neighbor that they were out of coal. I told the neighbor I would look after it and at once ordered a load of coal sent to the house. George Royer, Mr. Halisy's brother-in-law, telephoned me that if the coal would come he would pay for it as Mr. Hallisy did not want anything from township or county.

ALBERT KING.

The above statement is correct.

G. E. ROYER.

EDITOR AGE—I want to say that I wanted no help from the township or county in any way as I was perfectly able to look after my family during the sad time through which we have passed. The township trustees did all that was expected of them or they could do.

RAYMOND C. HALLISY

PRESENTS FOR THE POOR.

King's Daughters Made Many Homes Happy on Christmas.

The King's Daughters are so quiet in their good work of helping the poor that it is not often their deeds of charity come to light, but their Christmas work covered a range so wide that it could not but become public. The young women worked diligently preparing Christmas gifts for a large number of poor children, and then quietly distributed them. Their splendid work took cheer to many humble homes.

The also gathered the little ones in the parish room of Trinity Episcopal church and after permitting them to play for two hours increased their happiness by many presents

The Crawford Store,

(NEXT DOOR TO P. O.)

FRIDAY, DEC 27.

Between Christmas and New Year's Day

is generally considered the dullest week in the whole year. But it will not be so at this store this year. This is how we are going to do it.

1st.

We are going to sell all our Christmas Goods at a decided reduction, and as about 75 per cent of them are staple dry goods that can be used at any time, this is an unusual opportunity.

2d

We are going to have a Remnant Sale and a Sale of Odds and Ends that were left from a most active Holiday season.

3d.

A large shipment of belated Baskets and other Indian Novelties will be sold at less than usual. The R. R. will have to make up our loss.

4th.

The store will keep on its Christmas clothes all this week.

5th.

Santa Claus has rented one of our front windows for his store until New Year's Day. He asks you to come to see him. His stock is full.

P. S.—Isn't there some one that you have forgotten in the Christmas rush? If you will come to us we can supply you with a New Year's present for them.

TELLS ANOTHER TALE

Negro Janitor Again on the Stand at St. Louis.

REVISES HIS FORMER TESTIMONY.

Says He Distributed Anti-Diphtheritic Serum When the Anti-Toxin Had Become Exhausted and Didn't Believe the Serum Was Bad Enough to Kill Children.

St. Louis, Dec. 27.—Before the tetanus court of inquiry Henry R. Taylor, janitor for the chemical and bacteriological divisions of the health department, admitted under oath that he issued for public use the toxic anti diphtheritic serum which caused the recent deaths of 13 schoolchildren from tetanus. He distributed the vials, properly labeled, he stated, because the supply of diphtheritic antitoxin had become exhausted early in October and he did not believe that the serum was "bad enough to kill children."

Taylor is a negro. He has held city positions for many years. In addition to his duties as janitor he acted as assistant to the consulting city bacteriologist, Amand Ravold. More or less in the capacity of an assistant, he had charge of the antitoxin when it was in flasks and after it had been poured into the vials for distribution to physicians. For two hours Taylor was closeted with Chief of Detectives Desmond. Taylor was placed on the witness stand with the chief of detectives at his side. Mayor Wells advised Taylor to give a distinct, true, connected relation of facts appertaining to the toxic serum. Taylor then admitted that his former testimony, in which he swore that serum of Sept. 20 had not been distributed, was false. Taylor stated positively that he gave out some of the make Sept. 20. This serum, it is alleged, was responsible for the deaths of 16 or more children. Taylor said the serum of Sept. 30 was not destroyed until after the trouble began, and that he had been trying to "protect the whole office."

MISSING

Is a Diamond Chain Shipped From Washington to New York.

Washington, Dec. 27.—A mysterious robbery of a diamond chain valued at $3,500, of which either the Adams Express company or Shaw & Berry, a local jewelry firm which shipped it to New York, are probably the victims, occurred here. The jewelry was dispatched from here to Joseph Frankel & Sons of 68 Nassau street, New York. When delivered there was no evidence that the seal had been tampered with, and when the package was opened in New York the chain was found missing. The stolen gems numbered 200 and were set in a platinum lorgnette chain 54 inches long. The package was made up by the local firm under the personal supervision of the proprietors, and duly registered.

Cost of Colombian Rebellion.

Washington, Dec. 27.—Advices received at the Colombian legation speak of the deplorable financial condition of the country resulting from the strain of the rebellion. Paper money has depreciated so that $45 in paper money is equivalent to only $1 in gold. Mr. Herran, the charge at the legation, said: "The rebellion is now practically over. There are only scattered marauding bands left, numbering probably not much more than 300 men. These are in the isthmus of Panama and the state of Toulima, but they are being wiped out rapidly. The rebellion broke out in October, 1899, and has cost the country the lives of 50,000 able-bodied men, the sinews of her population, and $250,0000,000 in money, and has left the country in a state of exhaustion."

Excited Over a Killing.

Paris, Tex., Dec 27.—The people of this city and surrounding country are still greatly excited over the assassination of Rev. J. N. McClinton, a preacher and farmer near Deport. It is said that the Rev. Mr. McClinton's dying statement implicated two persons, one of whom, Howard McGill, a farmer, has been arrested. The horse owned and supposed to have been ridden by the other man implicated in the preacher's dying statement was found badly wounded near the scene of the tragedy, two or three buckshot having penetrated its shoulder. The other man has not been found.

Filipino Force Quits.

Washington, Dec. 27.—The war department has been advised by cable from Manilla of the surrender of the insurgent chieftain Samson at Mutasaron, with all his officers and men, 28 cannon and 45 rifles. Mutasaron does not appear on any of the maps in the possession of the department, but it is assumed that the surrender took place on the island of Bohol, as it was there that Samson of late had been operating with his followers, having crossed over from the former scene of his depredations, the island of Cebu.

Planter Slain.

Columbus, Ga, Dec 27.—Joseph Fincher, a prominent merchant and planter, was shot to death near Crawford, Ala., 12 miles west of here. Uriah Porter, a neighbor, is charged with the killing. It is said Porter and Fincher were not on good terms and that Porter had openly threatened to kill Fincher and a widow named Belcher and also a negro who was a tenant on Mrs. Belcher's place.

Trainmen's Hours Shortened.

Baltimore, Dec. 27.—On Jan. 1 the Baltimore and Ohio railroad will shorten the working day hours of freight trainmen from 12 to 10 hours. After 10 hours the overtime rate will be paid. This will add between $50,000 and $60,000 per year to wages paid by the company.

GOT MEN AND GUNS.

General Dewet Neatly Rushes Another British Camp.

DISASTER DISTURBS THE ENGLISH.

Fear the Boer Leader Will Proceed to Knock Down a Few Blockhouses With the Captured Cannon—General Kitchener's Report—Live News of the Old World.

London, Dec 27.—The British have met with another reverse in South Africa. General Kitchener, in a dispatch dated Johannesburg, says:

"Rundle reports that on the night of Dec. 24 Colonel Firman's camp at Zeefontein, consisting of three companies of yeomanry and two guns, was successfully rushed by a strong commando under Dewet. It is feared the casualties were heavy. Two regiments of light horse are pursuing the Boers."

Boer resistance has always been very strong in that part of Orange River Colony which was the scene of General Dewet's Christmas coup. A great quadrangle of blockhouses is being built there, the four points of which are Veereniguen, Valksrust, Harrismith and Kroonstadt. At the southeast corner of this quadrangle is a long open space, from Bethlehem to Lindley, where the square of blockhouses is still incomplete, and here Dewet made his attack. Colonel Firman's force probably amounted to 400 men, and the disaster, especially the loss of the guns, the possession of which may enable Dewet to successfully attack the blockhouses, creates a disturbing impression.

Accept Arbitration.

City of Mexico, Dec. 27.—A substantial agreement on the subject of arbitration has been reached by the several delegations to the Pan-American conference. It is almost sure that the agreement is unanimous, including even Argentina, who it was thought would refuse to sign any but a compulsory scheme of arbitration. The basis of agreement is simply The Hague convention. All the nations represented at the conference in Mexico will become parties to The Hague convention. They might join it independently, but as the United States and Mexico are already members of The Hague convention it has been concluded that they shall have the honor of introducing the other nations.

Maso Goes Home.

Havana, Dec. 27.—General Bartolome Maso, candidate of the Democratic party for the presidency of Cuba, left here for his home at Manzanillo. He has given up the campaign. The demonstration brought out a large crowd. A Havana newspaper quotes General Maximo Gomez as threatening to have Civil Governor Recio of Puerto Principe province expelled from office, when he returns to Havana, for having permitted demonstrations against Gomez in his political tour of that province. The same paper says also that General Gomez has threatened to "string up a few others when the Cuban republic is formed."

Steel Crane Fell.

Chicago, Dec. 27.—Three men were instantly killed and four injured by the falling of a steel crane at the American bridge works. The killed: John Swan, John Traver, Albert Rock. Injured: John Doyle, Charles Warren, Matthew Hogan, Patrick Murphy. All of the injured, with the exception of Murphy, are seriously hurt. Thirty men were working in the vicinity of the crane at the time of the accident, and many of these had narrow escapes. Swan, Traver and Rock were caught beneath the huge mass of steel and each was crushed so badly as to be almost unrecognizable.

President Mitchell Will Serve.

Indianapolis, Dec. 27. — President Mitchell, Vice President Lewis and Secretary Wilson will be re-elected without opposition at the national convention of the miners, which begins here in January. The nomination blanks have been sent out to all of the locals and no other names for these positions have been presented. A number of reports have been circulated recently to the effect that President Mitchell intended to retire to engage in some other business, but he has decided to remain at the head of the organization at least another year.

Jeffries Sued.

Kansas City, Dec. 27.—Tommy Ryan, once a prizefighter but now in business in Kansas City, brought suit in the circuit court here against James J. Jeffries to recover $1,000 which he alleges is due him for training the world's champion for his fight with J. J. Corbett at Coney Island, in May, 1899. The papers were served on Jeffries while he was in a Turkish bath, but he paid no attention to the matter, turning over and continuing to sleep without making reply.

While Temporarily Insane.

Washington, Dec 27.—The war department is in receipt of cablegram from General Chaffee, Manilla, P. I., reporting that Odus Reeder, second lieutenant Philippine scouts, committed suicide on morning of Dec. 23 by shooting himself with a carbine on board the Lawton. He was suffering from temporary insanity due to illness. Lieutenant Reeder was a native of Beverly, W. Va.

Railway Wages Advanced.

Pittsburg, Dec. 27.—All railroad companies in Pittsburg district granted increases to brakemen, yardmen and yard firemen. The advance is uniformly 2 cents an hour to yard conductors and brakemen and 1 cent an hour to yard firemen. Yard engineers are not affected by the increase, but they are now being paid more in proportion than other yardmen.

APPROVED

Has Been the New Constitution of the Methodist Episcopal Church.

Chicago, Dec. 27. — Announcement was made here that the new constitution of the Methodist Episcopal church, which was adopted at the last general conference of that denomination, held at the Auditorium in 1900 and referred to the various conferences throughout the country, has finally been approved by the three-quarter vote required. The vote is as follows: Ayes, 8,196; nays, 2,510. The principal changes provided for by the new constitution are: It gives women the right to sit as delegates in the general conference; it gives laymen's electoral meetings authority to vote on constitutional questions; it changes the vote necessary in the general conference to amend the constitution from three-fourths to two-thirds.

American Railroad Building.

Chicago, Dec. 27.—Figures prepared by The Railway Age show that railroad building in the United States during 1901 has been greater than it has been for 11 years previous, the total approximating 5,057 miles of line. In 1890 the total was 5,679 and in 1900 was 4,437 miles. The construction for the year added to the total mileage previously reported brings the total mileage of the country to approximately 199,370 miles.

Edisons In a Wreck.

Norfolk, Va., Dec. 27.—It was reported from Beaufort, S. C., that the gasoline yacht Onananiche, in which the two sons of Thomas A. Edison, the inventor, and the wife of one of them, with several friends, recently passed through Norfolk en route to Florida waters, has been wrecked on Cedar island, near Beaufort. No particulars came with the report.

Discrimination Charged.

Austin, Tex., Dec. 27.—Members of the Texas railroad commission returned from the Beaumont oil fields, where they have been investigating the charge that the railroads were discriminating against the oil fields by not furnishing transportation for the product. It is said that several damage suits will be instituted against the railroads by shippers.

Two Shot.

Savannah, Ga., Dec. 27.—William T. Kavanaugh and Jack Diegan were fatally shot in Levan's cafe by W. T. Dorlic, a bartender. It is said Diegan, who was until recently connected with Main's circus, was aggravating Dorlic, who fired three shots in self-defense. One struck Diegan. The second struck Kavanaugh, an innocent bystander.

BEYOND RECOVERY

Is the Mental Condition of Admiral Sampson, Says His Wife.

Urbana, Ills., Dec. 27.—John B. Weeks of Champaign, a personal friend of Rear Admiral Sampson, has received a letter from Mrs. Sampson in which she says that the mental condition of the admiral is beyond recovery. The letter was written in reply to a note expressing sympathy with the rear admiral in the personal annoyances he has suffered in the controversy with Rear Admiral Schley. The letter reads: "Admiral Sampson is too ill to really understand your most kind letter. My dear husband is quite worn out with a long life of concentrated duty. Physically he is comfortable and happy, but the brain is tired beyond ever being rested."

Miles at Work.

Washington, Dec. 27. — Lieutenant General Miles resumed his duties in command of the army at his office in the war department. It is said that he has decided to accept the situation with the best possible grace and will say or do nothing to continue the controversy. So far as known the incident will cause no decided change in his prearranged plans, official and social, for the future.

Blown From a Train.

Missoula, Mon., Dec. 27.—Conductor Charles King, who had charge of a freight train, was blown from his train into a deep gorge by a fierce storm which was raging. From Fort Benton come reports of the worst storm known there in years. Big windows of the courthouse were blown in and other minor damage done.

Four Boys Drowned.

Bridgewater, S. D., Dec. 27.—Four boys, who went skating on LaHave river, broke through the ice and were drowned together. They were Ferry and Mervill Rhodenhauser, brothers, 14 and 12; Curry Hubley, 12, whose birthday anniversary it was, and George Bachman, 10.

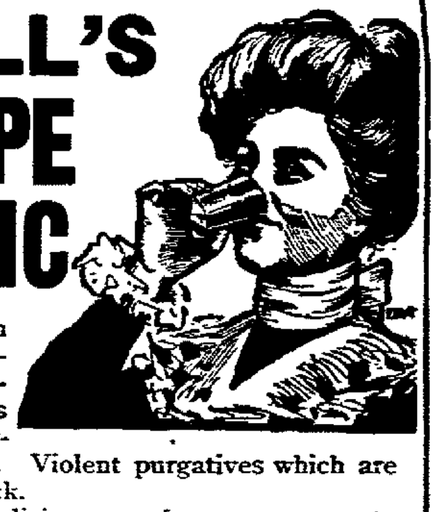
MULL'S GRAPE TONIC



With the harsh effects of drastic drugs commonly used as tonics, cathartics, liver and stomach medicines. Violent purgatives which are not a rational treatment for the sick.

Most doctors and patent medicine manufacturers resort to mercury, potash and opiates, which are all exceedingly injurious, though they sometimes temporarily relieve.

Mull's Grape Tonic is the life-giving juice of the grape, nature's own strength giver, combined with roots and herbs. Thus while pleasing to the taste, it is a perfect digestive, restorative and tonic. It nourishes, fortifies and refreshes, and is the greatest stomach, liver, nerve and kidney tonic known. It puts these great organs of the body in a healthy state. It rids you of that tired, depressed condition, caused by a run-down nervous system and impoverished blood. One bottle will convince you of its merits.

SETTLING IN THE WEST

Large Areas For Farms Taken Up by Colonies.

HOMES STARTED ON CHEAP LANDS

Communities of Foreign Families Have Bought Them Up Through Agents—Effect of Recent Successes In Wheat Growing—Russians to the Fore in Western Kansas.

A significant movement in settlement is taking place in connection with the development of prairie lands at the extreme western part of this state and in Colorado, as well as in other parts of the western Mississippi valley, where cheap land is to be obtained, writes the special correspondent of the New York Post at Abilene, Kan. This is particularly true of colonies made up generally of foreign descended families, who are desirous of forming settlements that shall be distinctly for their own people. Agents of the German American settlements of Pennsylvania and the similar population of Ohio and western New York have made many trips to the prairie states to seek locations for the constantly overflowing numbers that must go out into the larger field and make homes.

A committee of Quakers has been traveling up the Arkansas valley and has just purchased for the use of the members of that sect 5,000 acres in Prowers county, Colo., on which will be located 1,000 families. The lands they have chosen are on one of the large ditches where the level acres stretch away for miles in every direction and where the sugar beet can be raised in great abundance and richness. The Quakers have located several colonies in the west in the last few years, some of which have been successful and some not. This attempt is based on a more substantial basis than some of the others. Only Quakers will be admitted, and they will come from Ohio, Illinois and Indiana. They expect to pay $40 an acre for their land, with an annual water assessment of 40 to 50 cents an acre. The ditches that supply the lands are 265 miles long and are fed from the Arkansas river.

Another colony just located is in Greer county, Okla., where 1,000 families from Germany are to settle, each family getting forty acres. This land was bought through agents and is to be owned at the outset in common.

In western Kansas there is growing up a large colony of Russians, who are taking the wheat grounds and succeed admirably in producing that cereal. They began coming in the early eighties, and of late years their numbers have so increased that they are practically the possessors of two or three counties. They build churches that cost $20,000 each. The towns are closely built. The neighboring lands have been bought up by these people as fast as they could find the money until the prices have been raised to the highest known in the western part of the state since the boom times. Many are coming from Europe at frequent intervals, and their friends here are buying land for them in advance of their arrival.

The Dunkards, or River Brethren, who are allied to the Quakers without being of their sect, are buying more land steadily, taking, however, the higher priced farms of central Kansas. They are bringing many hundreds of immigrants out from the east to extend their colonies and are proving valuable citizens in that they have no paupers and scarcely a criminal.

The colonists who have moved into Oklahoma during the last few months have had some difficulty in securing farms in a body. They have been more successful when buying up the cheap lands in the western parts, where the homesteaders are not so eager to locate. In the northwest, where the railroads have been behind the immigration movement, whole neighborhoods in the middle states, such as Illinois, Iowa and Wisconsin, have been transported to new homes. It is estimated that 100,000 people have settled in the northwest since March 1 through the homeseekers' excursions. These excursions are becoming notable for the crowds they bring.

The wheat successes have been responsible for a great deal of the purchasing of land. Hundreds of sales have been made for the purpose of speculation all through the "wheat belt," which now extends into what was once thought only fit for grazing. The lands that eastern investors once loaned money on then took through foreclosed mortgages and finally sold for a trifle or abandoned to go to the counties for the taxes are coming in the market. One western Kansas county held 250 quarter section farms, 160 acres each, that came to it in this way. For three years it has been trying to sell them for approximately $40 a quarter section under tax title. Recently, owing to the demand for land, the farms have been withdrawn from the market and will either be redeemed by the orginal owners or will be sold to newcomers for larger prices. One speculator has just bought 50,000 acres for an immense wheat ranch in southwest Kansas. It is said that his land cost him only $2.50 an acre.

The opening of the southwest by means of the new lines of railway to the Mexican border and the throwing open of the Indian Territory to white settlement, a section as large as the state of Maine and which will in five years be out of the hands of the Indians, will give another great opportunity for the location of settlements, both of people of the United States and of foreign colonies.

WEAK LUNGS

As Indicated By A Hacking Cough.

Vinol Will Cure Lung Affections.

When you have a cough you are continually fearing something worse.

Do not let yourselves get in this condition. Come and talk to us and let us tell you why we know Vinol is the best thing that you can take for a hacking cough with a tendency to lung trouble.

One of the greatest remedies that has ever been prescribed by physicians for consumption and all wasting diseases is cod liver oil. You know how disagreeable it is to take. We have actually seen people who would rather take their chances than to take that medicine. Now with Vinol this is all different. To be sure it owes its value to the fact that it contains in a highly concentrated form the valuable medicinal properties that have made cod liver oil famous for such diseases, but let us remind you that it does *not* contain any oil or grease that makes the old form of cod liver oil so objectionable and often so impossible to a weakened stomach.

Try our Vinol if you are experiencing any bronchial or lung trouble. It does not upset the stomach. It will do that organ good, not only by creating an appetite but by enabling it to better assimilate the food that is taken into it. It will increase the nourishing properties of this same food, so that the system will take up all the elements it needs to make rich red blood and firm flesh.

When this is done the doors of the system are closed against consumption, and any existing irritation or diseased membrane will be cured.

Mr. Thomas Morton, Stillwater, Maine, says: "My grandson has been troubled with a bad cough lately and learning that Vinol was good for all pulmonary ills, I got a bottle of it for the boy. All I can say is that it proved just the medicine he needed. He now feels much better, and his cough has disappeared."

The reason we promise to refund the cost of Vinol, to all who do not experience the benefits that we claim it will bring about, is because we know by experience that it invariably accomplishes everything we claim for it. It is very successful

TRIP FOR LIBERTY BELL

How the Historic Relic Will Be Taken to Charleston.

IMPOSING PREPARATIONS MADE.

Truck Decorated With the National Colors Will Be Used to Haul It to Pennsylvania Railroad Yards In Philadelphia — Armed Men Will Guard It on the Journey.

America's most valued relic, the old liberty bell, will be sent to Charleston on Jan. 3 next, to be exhibited in the Pennsylvania building at the exposition to be held there, says the Philadelphia Press. This will make the bell's fourth trip out of Philadelphia within little more than a quarter of a century. Preparations for its removal have already begun. The work will be attended with all the dignity that national and civic pride demands, and the bell, dear to the hearts of millions, will go out of Philadelphia to the music of bands and the march of men.

The parade will not be imposing for its size, but it will be important on account of those who will have the honor of participating in it. An escort of councilmen has already been appointed.

A local safe building company will have the contract of removing the bell to Charleston. The truck on which it will be hauled from the statehouse to the Pennsylvania railroad yards will be decorated with the national colors. Six or eight horses will be attached to the truck, on either side of which will stand a cordon of police. A dozen reserves, all more than six feet in height, will take their places beside the bell when it is secure on the truck, and the procession will move up Chestnut to Broad street.

The flat car on which it will be placed will have a railing built around it. At one end of the car there will be a cabin to be used as a shelter by the guards. Cabin and railing will be decorated with gay colors, and an inscription on the side of the car will read: "Philadelphia to Charleston." A long line of police will form a guard when the bell is being loaded on the car.

The car will then be attached to a special train containing the council men, city officials and other prominent persons, who will accompany the bell on its journey.

In the cities and at the intermediate towns and villages along the route the journey of the bell will be marked by patriotic demonstrations. Appeals are already being received by Chief Pierie of the city property bureau asking that the bell be sent through certain towns on the way to its destination, so that the people may voice their reverence in public festivities.

The demonstrations will no doubt be second to those which marked the shipment of the bell to New Orleans on Jan. 23, 1885.

As the car containing the bell, guarded by armed men, bowled through cities and towns church bells were rung, cannon boomed, music was played and people shouted. Through the night as the bell sped on bonfires from the hillsides, farmers' milk lanterns, furnace fires and long lines of torches lighted its way. The bell was sent to Chicago in 1893 and to Atlanta in 1895.

LABOR'S GREAT FORUM

Golden Era's Note Sounded by It, Says Straus.

CLAIMS GRAND RESULTS ARE PLAIN

Labor Conference In New York, Declares Former Minister to Turkey, Is Working Directly Toward the World's Peace—Believes It Is Preeminently a Practical Movement.

A new plane of discussion of the labor problem has developed from the New York conference. The new committee of thirty-six is recognized in the general discussion of its aims, objects and proposed methods as a body having an authority at the bar of public opinion never before conceived of. Participants in and critics of the movement are now agreed that a new era has begun in the work of bringing capitalist and breadwinner to a common meeting place. The point most dwelt upon is the fact that theory, futile hitherto, has been abandoned for practical and efficient means.

As planned by J. P. Morgan, the deviser of the conference, the discussion has sounded a meaning note with which both interests are in accord. It has stated the basic principles of future relations to which money and work alike subscribe and has embodied those ideas in men whose representative character commands universal respect.

Oscar S. Straus, prominent in the movement as a man who has thought much and worked much for mankind, emphasizes these points in the interview which follows, says Julius Chambers in the New York Journal.

As a large and generous employer of labor in various branches of mercantile trade Oscar S. Straus, ex-minister to Turkey, was pre-eminently fitted to take part in the memorable conference of capitalists, labor representatives and neutrals that closed its session in New York city the other day.

The choice of United States Senator Marcus A. Hanna as chairman of the industrial department of the National Civic association was made in a spirit of the utmost harmony. Every man present at the conference bears testimony to that fact. Mr. Straus declares him to be the ideal chairman of so important and so original a social and economic project.

"I regard this as the greatest and most conspicuous movement for industrial peace that has ever occurred in the history of labor," said the Hon. Oscar S. Straus. "I am devoted to its prosecution heart and soul. We are not theorists, for you will see that we have eliminated that phase of the subject in our 'plan and scope.' This is pre-eminently a practical movement—managed by practical men to achieve practical results. We do not hope for the millennium, but we do expect to be able to lessen industrial disturbances, to be instrumental in bringing employers and workingmen nearer together for the purpose of avoiding and removing those misunderstandings that in the past have been the most fruitful sources of strikes.

"The whole tone and spirit of the conference, as expressed by the representative men who stood for two millions of organized labor, by those men who represented the public interest and by the men who are the chief representatives of the largest employers of labor throughout the United States, were such as to cause every member present at each session to feel assured that the inauguration of this momentous movement and the formation of this permanent body would have the most beneficial results."

The speaker then paid the highest compliments to the intelligence of the men who acted as spokesmen for labor. He concluded by saying:

"The representatives of labor met us upon a high plane and in a broad spirit. They were Gompers, president of the American Federation; Mitchell, president of the United Mine Workers; Sargent, grand master of the Brotherhood of Locomotive Firemen; Shaffer, president of the American Association of Iron, Steel and Tin Workers; Keefe, president of the International Association of Longshoremen, Fox, president of the Iron Molders of America; Lynch, president of the International Typographical union, White, secretary of the Garment Workers of America, and MacArthur and McDonald.

"I can sincerely say that the representative employers came with the same feelings. It was a grand and magnificent reunion. I shall always be proud to have had a place in its membership.

"I am not a prophet or a chaser of rainbows, but to me the grand results to be expected are plain.

"Employed and employers must feel grateful for the enthusiastic support of the newspaper press throughout the country. It has shown the highest public spirit and interest.

"Early conferences when differences arise are the surest safeguards," continued Mr. Straus as he handed me the text of what is known as the "scope and province of the department." These are the resolutions adopted at the meeting of the executive committee the other day.

"Those are the frank and joint expressions of all the elements represented in the conference," added Mr. Straus in conclusion. "They are epoch making. The golden era's note of peace has been sounded."

Town Topics and All Kinds of Local Happenings Told in Brief.

—The Gray Hardware Company.

—Miss Daisy Wilson has been ill at her home on Main.

—B. F. Smythe shipped a carload of horses to Norfolk, Va., Thursday.

—Country roads are muddy and because of heavy travel are badly cut up.

—A special express train drawn by two heavy engines went east on the Pan Handle this afternoon.

—Coshocton stores have returned to the usual hour of closing after the holiday rush and no business is done in the evening.

—Leander R. Morise, of Roscoe, and Miss Hattie Jewell were married by Rev. C. C. Erwin Christmas evening at his residence.

—Work on the hot water system for the Walnut school building is progressing rapidly. The pipes have been laid in South Seventh.

—Local express agents are now resting after the daze of the holiday rush. They unite in the opinion that it was the greatest holiday business Coshocton has ever known.

—The last issue of the *[illegible] Standard* appeared today. It lived almost 24 years. Next week it will be merged into the new publication, the *Democrat and Standard.*

—Zanesville night policemen have been supplied with electric lanterns, and now the people are hoping they will find some of the wickedness in that town of gaiety and gore.

—The case of Moses McKee against J. M. Pigman has been appealed to common pleas court from the court of Justice Sproull of Washington township. R. A. Powelson is the attorney.

—The windmill in the west window o' the Crawford store continued to be one of the attractions of Main street. When the display was illuminated it presented an especially attractive appearance.

—The Pan Handle passenger schedule has been restored after a great deal of hard work on the part of the operating department, and after more than a week of demoralization trains are running as usual. It was the hardest task the road has faced in a number of years.

—The pleasant home of Doctor and Mrs. Piatt on North Eighth was transformed into fairyland Thursday evening when the younger members of their family and a number of children from the neighborhood were entertained with a Christmas tree. It was an ideal picture decked out in lights and brilliant green, and the genial superintendent and Mrs. Piatt enjoyed it as much as did their merry little guests.

Fearful Fray In a Church.

Pikeston, O., Dec. 27.—In the general fight that occurred in a small church at Pike postoffice six men were fatally wounded. A panic took place among the congregation. A series of religious meetings was in progress at the church and the building was filled when Charles and Orrin Day appeared slightly intoxicated and announced that they had come to clean out the Leggs," a family with which the Days had frequently quarreled. A general fight resulted in and about the church. Women and children shrieked and sought safety from revolvers and knives by jumping out of windows. Only the minister, Mr. Rowe, remained. At the close six men lay fatally hurt, Orrin and Charles Day, Wesley Legg, Joseph Williams, John Currant and Lebanon Williams. Others were slightly wounded.

Wreck and Accident.

Cincinnati, Dec. 27.—Unable to see the flagman's signal on account of the fog, the engineer of the southbound Chicago express on the Cincinnati, Hamilton and Dayton road was unable to stop his train at Hartwell until it had struck a freight crossing the track and demolished three freight cars. Four passengers and two trainmen on express train were injured, not severely. The wrecking train on the way to Hartwell met with an accident, killing Patrick Mefley and William Nipper and fatally injuring Louis Tenbrink. The chain of the crane broke and struck the three men while the train was in motion.

[illegible] Wash., Dec. 27.—Governor John R. Rogers died Thursday night. He was taken sick a week ago with a [illegible] which developed into pneumonia. Mr. Rogers was born in Brunswick, Me., in 1838. From 1852 to 1856 he was a drug clerk in Boston, and [illegible] next four years was engaged in the drug business in Jackson, Miss. He taught school for several years in Illinois and in 1876 moved to Wichita, Kan., where he was editor of The Kansas Commoner. During his residence in Kansas Governor Rogers became a Farmers' Alliance organizer. In 1890 he removed to the state of Washington, where he was elected to the legislature. In 1896 he was elected governor on the fusion ticket, and re-elected in 1900. Governor Rogers was the author of several works on political economy.

COUNTRYMAN

Shoots Two Men and Surrenders. Says They Tried to Rob Him.

Jacksonville, Fla., Dec. 27.—William N. Lloyd, an ex-policeman and former locomotive engineer, was killed, and his brother, D. Lloyd, mortally wounded, in this city. Charles Michael, a lumber mill employe from White Springs, Fla., who surrendered himself to the police immediately after the shooting, says that the men, with whom he had been associated in a friendly way, lured him to a lonely spot at the end of the streetcar line, leaped on him and made a desperate attempt to rob him. The countryman, it is said, used his pistol with fatal effect, shooting one man in the head and the other in the stomach, Michael's face being badly scratched and his clothing torn.

We have tried hard to merit public confidence and favor, and are very much gratified to know our efforts have been so highly appreciated. We have by no means reached our ideal, but we are moving toward it.

A nice little sprinkling of Holiday Specialties are still here. They will be closed this week at 25 per cent. discount.

There are always some cases you have overlooked, whom you will wish to reach this week with a seasonable reminder. This affords you a splendid opportunity to do so at a trifling cost to you.

As soon as we can get our breath—after the Christmas rush—we will open a Rummage Sale, which we expect to make the feature of the year. Our business year closes with February 1. Keep your eyes and ears open for an announcement.

Your servants,
The Fountain D. G. Co
